Help Future Generations and We’ll Celebrate Your Life Now!

THE HERITAGE CLUB was established in 1986 to honor community members who have chosen to leave a lasting legacy by providing for the advancement of health care at Kaweah Delta. Every one of the generous 500 club members has made a gift of at least $5,000 by will, trust, life insurance, or cash towards the endowment fund. The legacy of our donors will save lives for years to come.

A charitable gift is a fulfilling and generous way to help shape the world around you. In return, we promise to strive to provide award-winning health care today and for future generations.

Join the club  kaweahdelta.org/foundation

Kaweah Delta Hospital Foundation  EVERY GIFT COUNTS
Foundation Director

It seems impossible my first year as Foundation Director is already over! While COVID-19 is forefront in our minds, we want to remind you of the good work that has taken place over 2019 and will continue in 2020. We know that none of this would be possible without generous donors and supporters like you!

A few highlights from 2019 include:

**Street Medicine Program:** The Foundation proudly supports the hospital’s new Street Medicine Program. This program is modeled after successful programs throughout the United States. Through fundraising support from local businesses, and grants, a small group of dedicated physicians, medical professionals, and community members, volunteer their time to take medicine to the streets. This team strives to provide minor medical services to vulnerable individuals. In return, with hopes, their efforts will keep these individuals healthier so they will not need emergency medical services. Our Street Medicine team also partners with other agencies to help these at-risk populations.

**District Grants:** With the help of our dedicated medical professionals, the Foundation plays a vital role in obtaining state, federal, and private foundation grants for the District. We continually work within many different hospital departments to seek funding for patient services, healthy living, research, training, and education. For example, grant funding provides workforce training for over 120 new physicians each year in Family Medicine, Emergency Medicine, and Psychiatry programs. Our hope is that these physicians will fall in love with our community and choose to stay in Tulare County once they have completed residency at Kaweah Delta. Additional grants help with opioid addiction, pharmacy training, chronic diseases, and diabetes education.

**Lost Girls Cancer Fund:** Years ago a small group of local riders, known as the Lost Girls Motorcycle Club, began hosting an annual ride-along to benefit breast cancer patients. Little did they know, they would start an amazing movement! Through the years many other organizations have joined in to help with this important cause. Momentum Broadcasting began sponsoring the “Girls with Guitars” concert, Tulare County Professional Firefighters Association sells pink T-shirts, and Ruiz Foods hosts an annual “Pink Out” day for its employees. The Tulare County Sheriff’s department joined fundraising efforts in 2019. These funds help purchase state-of-the-art medical care equipment and technology to detect and prevent breast cancer. Funds are also used to provide compression garments, post-surgical camisoles, and wigs for patients who otherwise would not have access to these comfort care items during recovery. We are very thankful for these astonishing organizations that lend a hand so every woman and man in Tulare County has the opportunity for cancer care.

These are just a few examples of projects funded by our supporters. None of these impactful programs would be possible without our donors, large and small. We want to thank you for your financial generosity. Your gifts matter! It is more important now than ever that the Foundation work diligently to keep moving forward to meet the needs of our health care community. The financial impact of COVID-19 on the health care industry is predicted to be high as we implement measures to treat patients and curb the impact of this virus. We ask that you keep our health care team in your thoughts and consider a donation to the Foundation to support our important work in our community.

Thank you once again for your support!

Sincerely, Liz Wynn, Director
Foundation President

Continuing My Journey as Foundation President

When Foundation members asked me to lead the organization once again, I was honored. I began my second Presidential term in January 2020. We have made incredible progress working alongside our many volunteers. We will continue to work hard to keep our community hospital at the forefront of the healthcare industry. I’ve highlighted some of our most recent accomplishments . . .

MIND OVER MATTER CAMPAIGN – Thanks to the generosity of our community and Kaweah family, we have nearly 75% of the funds needed to provide advanced technology for our Neuro Surgery Program. Our new Brain Lab System will allow our physicians to treat cancerous and benign tumors with pinpoint accuracy. In addition, the new STEALTH STATION S8, working alongside the Brain Lab System, will provide surgeons with superior real-time images to treat these tumors.

We hope to have all the necessary funds, 1.5 million dollars, to purchase the equipment this summer. Again, thank you for partnering with the Kaweah Delta Hospital Foundation. Your support improves the quality of life for our patients and community! View an equipment display video at www.kaweahdelta.org/foundation.

ANNUAL GOLF CLASSIC – We held our 31st Annual Golf Classic last August. The tournament raised over $130,000. We are very thankful to our sponsors, players, and volunteers who contributed their resources and talents making the tournament another record breaking success! Tournament proceeds benefited the Mind Over Matter Campaign.

This year, the Annual Golf Classic will be held Friday, August 7th. We hope you can join us for lots of fun and friend-making. If you are interested contact the Foundation at foundation@kdhcd.org.

KAWEAH FAMILY – Our Kaweah family leads the way! The majority of employees contribute a portion of their paychecks to the Foundation. Together they have contributed over $500,000 for the Mind Over Matter Campaign. On behalf of the board, we thank them for all their hard work and dedication.

There are many other individuals and groups who have also contributed generously to the Foundation. A heartfelt thank you goes out to all of them.

Lastly, thank you for putting your trust in us! We will continue to work hard to provide the best health care equipment and technology available. If you too would like to help, please contact the Foundation office at (559) 624-2359 or visit www.kaweahdelta/foundation.
New Foundation Board Members

Francine Hipskind

Francine Hipskind serves as the Government Affairs Director for the Tulare County Association of Realtors. A native of Porterville, she has had dual careers in both real estate and in public health. She graduated from California State University-Fresno with a degree in Health Science, then attended Benedictine University near Chicago, earning a Master of Public Health diploma while her husband, John, served his medical internship at Cook County Hospital. Fran previously served as the Executive Director of the Tulare County Medical Society, and has health care experience dating back to when she was in college and worked part-time at the old Lindsay Hospital. John and Fran have three boys—John, David, and Gregory—who are students at Fresno Pacific University, Redwood High School, and Cuesta College respectively. The family loves traveling together, especially to Italy, where John’s mother is from, and to go skiing. Fran loves baking, cooking, and family gatherings most of all.

Dr. Linda Herman

Dr. Linda Herman is the Program Director for Kaweah Delta’s Emergency Department. She joined KD after graduating from the Ohio State University College of Medicine and serving her residency with University of Illinois Emergency Medicine in Chicago. Linda is the mother of four children and enjoys cooking, gardening, and visiting historic hotels. She is definitely happy to have traded Chicago winters for Visalia’s mild ones, and she loves walking around without a heavy coat, admiring all the flowers blooming still.
Walking and standing are two of things that make us the most human – and two of the things we take the most for granted in our daily life. But when a stroke, amputation or accident mean we have to re-learn those activities, Kaweah Delta’s rehabilitation department can step in and put hope in motion.

Learning to walk again can be challenging, both for patient and therapist. With the addition of SafeGait 360 Balance and Mobility Training, we can increase patients’ confidence and reduce their fears of falling with a track-and-harness system that assists with balance and fall prevention. This system’s software tracks patients’ movements, so the therapist can make adjustments quickly and safely, while letting patients learn to negotiate stairs, transfers, and floor exercises.

Therapists, too, can benefit as they are less likely to be hurt catching a fall, giving them the opportunity to expand their intervention strategies. They won’t have to be on guard for falls, the most likely time for work-related injury, which will also mean fewer staff are needed to work with one person, opening up for other patients. Data provided by the system will also be available to help therapists evaluate treatment plans.

SafeGait uses Dynamic Fall Protection technology that distinguishes between a fall and intentional downward movement. When triggered, the system catches a patient and allows them to regain their balance. When patients are free of crutches or other supports, they can feel move more safely and feel secure. Patients can learn balance boundaries and learn how to regain stability when they are outside of rehab.

SafeGait 360 Balance and Mobility Training will benefit patients, Kaweah Delta staff and our community, which will see people back to happy, productive lives sooner. Support the Foundation in its mission to provide safe, high-quality, customer-focused, and financially-strong healthcare that meets the needs of those we serve.

Supporting the Kaweah Delta Foundation Mission to provide safe, high quality, customer-oriented, and financially strong healthcare services that meet the needs of those we serve.
Giving to help patients walk again.

New technology in rehabilitation.
SafeGait 360° Balance and Mobility Trainer™ gives hope to those who are recovering from a stroke or other injury.

Hope in motion. Giving Campaign.
